*Allowable Subject Matter*

1. Claims 1, 2, 5, 6, 8-10, 12-17 are allowed.
2. The following is an examiner's statement of reasons for allowance: In the response filed 12/2/2003, applicant argued that the examples presented in the previous declaration were persuasive as the A/B ratio measurement was performed *before* dyeing, thus the type of dye employed would have no effect on the value. The examiner has reconsidered her position in light of applicant's arguments and the declaration results and has dropped the rejections of record. The examiner has performed an updated search of the prior art of record and no new relevant art was found. Therefore, the instant claims are allowable over the prior art of record as the prior art when tested fails to demonstrate that the material of the reference inherently possesses the claimed A/B ratio.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
